## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-10, 12-21 allowed.

The following is an examiner's statement of reasons for allowance:

For claims 1, 10, 17, 21, the prior art does not teach an output device; for presenting a media data stream; a communication port configured for communicatively linking with the output device; and a controller, communicatively coupled to the communication port, for controlling output of the media data stream, said controller being configured to execute a program of instructions, wherein the program of instructions causes the controller to: detect the existence of a communicative link between the output device and the communication port; pause output of the media data stream to the output device after a first predetermined time period, if no communicative link exist between the output device and the communication port; and shut down operation of an electronic device including the system after a second time period, if no communication link exists between the output and the communication port, said second time period being of a longer duration than said first time period, wherein the system minimizes the amount of energy consumed by the electronic device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
